

STABLE HANDS SANITISER

When heading out and about with your horse or pony, think about how many surfaces your hands come into contact with? The float doors, the service station you stop at for fuel and snacks on the way to and from events, shared equipment at your riding school, opening and closing gates...the list goes on! Time at home with an illness means time away from riding.

Unfortunately, soap and water are often impractical or not always handy when you're not at home, or you're in the stables. **Equinade Stable Hands** is an instant hand sanitiser that is a quick and easy solution for cleaning your hands on the go. No soap and water is required, and it dries quickly, leaving your hands sanitised, and soft. **Equinade Stable Hands** contains 70% alcohol to instantly kill 99.9% of germs on contact.

What are the benefits of using Equinade Stable Hands Sanitiser?

- ✓ Substantially reduces germs on hands
- ✓ Requires less time than hand washing
- ✓ Easily accessible & portable
- ✓ Self drying
- ✓ Gentle and moisturising on skin, causing less irritation and dryness than soap and water

Equinade Stable Hands Sanitiser 125ml liquid spray is the perfect size for on the go! Carry a bottle in your pocket, car door or bag and you'll always be able to sanitise your hands with a quick spray, no matter where you are.

Our 500ml gel pump is perfect for the stables, kitchen bench, office desk and anywhere else you have space to place a bottle. The 2.5L gel refill can be used to refill the gel pump bottle once it is empty.

Directions: Apply to palms. Rub hands together until dry, paying particular attention to between fingers, finger tips, wrists and backs of hands.
