- ✓ Preserves leather goods to ensure a long, useful life
- ✓ Comes in a convenient 500ml pump pack
- ✓ Suitable for saddles, bridles, harness, luggage, boots, belts, upholstery, car interiors and all fine leather products

For Best Results -

Simply apply Equinade Liquid Leather Soap with a soft cloth and wipe over the leather. When dry, remove excess soap and dirt by polishing with a clean, soft cloth. Usually only one application is necessary, unless the leather is extremely dirty.

Once clean, leather may be treated with Equinade Leather & Saddle Oil to waterproof, soften and preserve saddles and gear. Leather items not requiring heavy oiling can be nourished with Equinade Natural Leather Dressing. For leather goods requiring a soft luxurious feel, use the deluxe Equinade Coconut Leather Conditioner.

All Equinade products are available from your local produce or equestrian store. Simply ask for it!
