

Glowsilk Protein Conditioner

After shampooing your pet, it is important to seal the coat and skin to help prevent itching, drying or damage. **Pooches n Cream Glowsilk Protein Conditioner** leaves a fine film to protect the coat and skin which helps produce a healthy glow. The thick formula allows the conditioner to spread further and last longer. It is especially beneficial and effective when used on long-haired pooches.

How can Pooches n Cream Glowsilk Protein Conditioner help your pet?

- ✓ Gives a long-lasting shine and silky softness to the coat
- ✓ Untangles knots easily and without damaging the hair
- ✓ Restores the skin's natural pH level (acid mantle) to help prevent the onset of skin problems
- ✓ The added protein is absorbed by the hair fibres to give body to the coat and protect the individual hairs from splitting and drying
- ✓ Protects the coat from staining and attracting dirt
- ✓ Helps to maintain long-haired coats tangle free
- ✓ Provides protection from damage to the hair fibres caused by the heat and wet
- ✓ Pleasantly fragranced for a great smelling pet

Available in 250ml, 500ml, 5 litres and 20 litres. Ask for **Pooches n Cream Glowsilk Protein Conditioner** at your local pet or produce store.
